COMMUNITY CONSTRUCTION UPDATE

Recycled Water Project Construction Resumes September 14

September 9, 2026

Dear Customers, Community Members, and Neighbors,

MCCSD has been notified that Ghilotti Construction Company will resume work on the MCCSD Recycled Water Project beginning Monday, September 14, 2026.

We understand work during the week of September 14 will include boring beneath Highway 1 at the Little Lake Road intersection, as well as trench paving west of Highway 1. Ghilotti plans to begin boring work on Monday 9/14/26. Trench paving will also begin on 9/14 starting near Kelly and Ukiah Streets by the MCCSD Wastewater Treatment Plant and progressing east toward Highway 1.

Temporary Road Closures

The boring work will require some temporary traffic detours and single lane closures:

- **Eastbound Little Lake Road east of Highway 1**, between Highway 1 and Clark Street, is expected to be closed for approximately **1–1½ weeks**.
- **Eastbound Little Lake Road west of Highway 1**, between School Street and Highway 1 near Friendship Park, is expected to be closed for approximately **1–1½ weeks**.

Ghilotti Construction will coordinate traffic control and establish detours. Motorists should expect delays and allow additional travel time through the area.

We apologize for the inconvenience and appreciate your patience and understanding as this important project continues. MCCSD recognizes the impacts construction can have on our community and will continue to provide updates as work progresses and we become aware of any changes.

Thank you for your continued support.

Ryan Rhoades
Superintendent
Mendocino City Community Services District
